Thanks John,

Can you provide a general overview of the types and approx. numbers you have for this operation?

Good morning,

A key influencer, Mr. Artur Pawlowski has had his bail hearing and the case is adjourned until the 16th. He is detained in custody until then.

The enforcement action is underway at CP10. We started with dialouge early in the day progressing to ticketing in the evening. We have the lawful protest site established and the goal is to transition the protestors from CP10 to the lawful site we got from the ministry of transportation.

Yesterday CCMG engaged the crowd and STO was present to assist our GD resources in the ticketing for the offenses under the highway traffic act. No one has voluntarily moved although they did indicate a willingness to do so early in our discussions. The willingness stemmed from a shared concern for safety with people and moving vehicles in close proximity. We will continue to work jn this today.

With respect to our main site, we are looking at making some strategic arrests. Still weighing the pros and cons, and the timings of these arrests. We are also still trying to negotiate the resumption of some traffic being allowed to cross the border.

There was one arrest early in the enforcement action related to an individual who started tampering with a sheriff vehicle and displayed mental health issues. That individual was apprehended under the Mental Health Act.

Just starting our planning for meeting.for the day, I may have more after that.

John,

We may need our staff to prepare a quick paragraph or two in response to question 2.

Curtis

Good evening,

Just got off the phone with Rob Stewart and he was given the following questions, from the Clerk's, following her meeting with the PM. He needs answers by noon tomorrow:

- 1) What is the RCMP doing now in Ottawa? (Mike)
- 2) What is the RCMP doing now in Coutts? (Curtis)

For these 2 questions, it is about describing our duties and the numbers attached to each duty.

- 3) What additional resources do we have available and where would they come from?
(Mike & Brian)

For #3 it is about approximate numbers that we could draw on from Federal and Contract that are otherwise not essential to operations.

- 4) What can the Federal Government do to end this? (Brian)
 - Can the RCMP take over?
 - Is it legally, operationally, tactically possible/sensible to this?
 - What are virtues (pros/cons)

- 5) How do we stay on top of this? How do we use intell to stay one step ahead? (Mike)

Let's do what we can, without over-complicating it.

Thanks a ton!

Brenda
